Art Unit: 1754

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Hahn on June 1, 2004.

In claim 11, line 4, "or zinc" has been deleted. Further in line 4, after "and" the phrase - - an oxide, a hydroxide or a sulfuric acid salt of - - has been inserted.

The following is an examiner's statement of reasons for allowance: The claims are allowable over Woltermann (U.S. Pat. 4,454,244) and Bhattacharyya (U.S. Pat. 6,071,433) since the Minigawa Declaration filed under 37 C.F.R. 1.132 on January 22, 2004 provides evidence that the composition recited in applicant's claim 1, which requires the combination of zinc and magnesium, provides a new crystalline structure exhibiting a single X-ray diffraction peak in a region where 2 theta is 33 to 50° and in a region where 2 theta is 60 to 64°. Accordingly any holding that it would be prima facie obvious to employ a combination of zinc and magnesium as the metals in the compositions of Woltermann and Bhattacharyya has been rebutted.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
